Applicant: Leonid Kalika, et al.  
Appl. No.: 10/549,342  
International Filing Date: March 24, 2004  
Title: SELF-CONFIGURING, SELF-OPTIMIZING WIRELESS LOCAL  
AREA NETWORK SYSTEM  
Attorney Docket No.: STRX-109(P)(US)  
Pub. No.: US 2007/0127417 A1  
Pub. Date: June 7, 2007

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on April 9, 2009, for the above-identified application

The request is DISMISSED.

Applicant requests that the application be republished because the patent application publication contains a material error on the front page of the application wherein three of the inventors' names have been omitted.

37 CFR 1.221 (b) is applicable "only when the Office makes a material mistake which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed **within two months** from the date of the patent application publication. **This period is not extendable.**" A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.<sup>1</sup>

The request for corrected publication, received on April 9, 2009 was not timely filed under 37CFR 1.221(b).

Moreover, the omission of an inventor's name and residence does not affect the understanding of the application. The mistakes do does not affect the public's ability to appreciate the technical disclosure of the patent application publication, or determine the scope of the patent application

publication or determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.

The request to change the Attorney Docket No. to: STRX-109(P)(US) has been done.

It would greatly benefit the Office if **applicant did not provide copies of papers**, which were previously submitted and/or **a complete copy of the pre-grant publication**, as it unnecessarily increases the cost to the Office. See 37 CFR 1.4(b). A request for corrected publication need only point out what was printed incorrectly in the application, where the error occurs in the publication and where the correct text or drawing is found in the application papers. Marked up relevant copies of the applications papers and the pre-grant publication may facilitate processing of the request, where it is not readily apparent where the error occurs. If it is not clear why the error is a material error, further explanation may be warranted.

The applicant is advised that a "request for republication of an application previously published" may be filed under 37 CFR 1.221(a). Such a request for republication "must include a copy of the application compliance with the Office's electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18(d) and the processing fee set forth in § 1.17(i)." If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18(d) will be refunded. The processing fee will be retained.

A guide for filing a request for a Pre-Grant Publication, such as a request for republication, may be found on the link below:

<http://www.uspto.gov/ebc/portal/tutorials.htm>

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system, as a "Pre-Grant Publication" and questions or request for reconsideration of the decision, should be addressed as follows:
